Why Choose Combrow Data Networking Products?

Specifically designed for high performance, ease of installation and value for money, Combrow data networking products are end to end tested and fully integrated to provide long term network reliability when used together as a system. When installed by a Certified Installer the system performance can be guaranteed by a 25 year system warranty.

Product installation features include:

- Clear termination markings on patch panels & data modules. Colour coded to T568B wiring standards.
- Terminate with industry standard tooling
- Fixings, labels and cable ties included with all panels and modules
- Strong, snag free cable boxes with clear markings of cable type, NVP and box weight. (Cat6 reel-in-a-box)
- Cable reverse meter marked 305mtr to 1mtr to reduce wastage

Certified Installer benefits include:

- Confidence: Product reliability and system performance to standards
- Warranty: 25 year system warranty
- Competitive edge: Premium performance at a reasonable price.

Purchase the full range of Combrow products from your local Authorised Distributor

The 25 Year System Warranty

A 25 Year System Warranty is available exclusively through Certified Installers where new Combrow data networking products are purchased via an Authorised Distributor & installed internally as a system.

Permanent Link system guarantees can be very complex but we have done our best to ensure site owners & installers know exactly where they stand in the event of experiencing any product performance issues during the period of cover. For further information please request details of the Combrow 25 Year System Warranty Terms & Conditions.

Warranty application process:

- Quick and simple process to pre-register and submit project details
 - Purchase Combrow products and complete system installation
 - Send final test results and site details to Combrow C.M.S.
 - Results are checked promptly
 - Warranty Certificate and Certificate Of Conformity are issued immediately following final audit of application.
- (Combrow C.M.S reserve the right to validate test results)
